

BALLISTIC / STAB RESISTANCE CERTIFICATION REPORT

Display sample for Hephaestus storefront report presentation only

Report code	VPAM-007-SAMPLE-HEPHAESTUS
Product name	Guardian Slash Resistant Vest
Certification body	VPAM
Standard / version	KDIW 2004
Protection level	Stab Level 1
Laboratory	Atlas Ballistics Lab
Test status	PASSED
Issue date	2026-06-02

Scope of sample report

This document is a visual sample prepared for the Hephaestus / Hepharmor storefront. It demonstrates how certification data, report code, laboratory, standard, and status can be presented to customers on the product detail page.

Observed configuration

Sample tested configuration includes front and rear protective zones, outer carrier assembly, and representative soft protective insert package consistent with the listed product family.

Result summary

Under the declared laboratory procedure and stated configuration, the sample met the referenced Stab Level 1 performance target. See final production report and supporting annexes for the legally controlling test record.

Watermark: SAMPLE / FOR STOREFRONT DISPLAY ONLY / NOT A REGULATORY FILING

Recommended use on storefront: product report preview, certification summary card, downloadable sample PDF.

For final publication, replace this sample with the actual issued laboratory report or a redacted customer-safe version.
